## EAA CHAPTER 94 MINUTES AND NEWSLETTER

VOLUME 2011, NOTES -9

PAST MINUTES AND NOTES OF INTEREST— NOT PUBLISHED

### EAA Chapter 94 Monthly Meeting

December 18, 2011

Mark Holt's Hangar @ KMCW

The monthly meeting of EAA Chapter 94 was called to order by Jeremy Peters at 2:20pm. There were eleven members present.

Motion to waive reading of previous meeting's minutes made by Allan Schmidt, with second by Scott Weinberg. All approved, and motion passed.

Treasurer's report was given by Bill English. Motion to approve treasurer's report was made by John Backer, with second by Dave Eastman. All approved, and treasurer's report accepted.

#### **Project Reports**

**Legal Eagle** – Ken Asbe reported that another jig has been built, and an upholstery stapler that has been purchased works much better than the recommended one. Wood purchased for wings has been delivered to the school.

**Project 140** – Ken Asbe had the landing gear boxes from the donated Cessna 140 for inspection, and said that he had ordered a piece of aluminum for a new bulkhead. Ken estimates that the project will require \$10,000 to \$12,000 to rebuild. Scott Weinberg also mentioned that they may quiz the students in Charles City High School class to see if they were interested enough to help with fundraising.

#### **Announcements**

Ken Asbe and Dave Eastman announced that they will be attending the January session of EAA Chapter Leader's Academy. This will be held at EAA Headquarters in Oshkosh January 20-22.

#### **Board of Directors**

A vote was taken on the three open Board of Director positions. All votes were unanimous.

Craig Draves (12/2013)

Eldon Gast (12/2013)

Jeremy Peters (12/2014)

They join Mike Mullenbach and Joel Buseman, whose terms will end 10/2012.

#### **Chapter Officers 2012-2014**

President – Ken Asbe

Vice-president – Dave Eastman

Secretary/Treasurer – Bill English

#### **Adjournment**

Motion to adjourn was made by Dave Eastman, with second by Ken Asbe. All approved, and meeting adjourned at 3:00pm.

Following the meeting, Mark Holt gave those attending a chance to look over his "new" plane, a Cessna L-19 Birddog.

## READ this and RESPOND please!

#### **Next Meeting**

The next EAA Chapter 94 meeting will be at our annual banquet, which will be January 28, 2012 at the Clear Lake VWF, 219 Main Ave, Clear Lake, IA. Social hour begins at 5:30pm, with supper starting about 6:30pm. There will be a choice of steak (\$15) or chicken (\$13) for supper. **Please let Bill English know how many will be attending, and what**

Please note my new email address, Bill

*From the editor:*

*I have started a yahoo group site for all of my design work and other related aircraft work. Many of you are already connected to many yahoo groups, you can join this one as well and when updates of the Legal Eagle build project happen, you can see these update posted and follow along.*

*This is contained under the “files section” on my site listed under Legal Eagle XL*

*You can get there fairly quickly by going to*

***<http://groups.yahoo.com/group/IronDesign/files/Legal%20Eagle%20XL%20Case%20Study/>***  
***And then signing in.***

This looks to be a fairly easy task to complete for all and has been working well for me to make updates, ext, without lots of web site work.

I think this was also going to be followed by a face book page, or a some other form of web site, but I have not received information to these locations.

You can consult our web page editor for further information, he is listed on the front page. (Adam)

Thank you, Scott Weinberg.

On the Legal Eagle aircraft build project. We are working on material package list and have the brakes , wheels, tires and axles on hand. Steel amounts are known, a feasible rib layout fixture is at hand, wood package on its way and possible contracts for some parts requested to made by the school for others. If your at all interested in the purchase of the Project upon completion please talk to Scott W. or Ken A.

**Doug’s Third Thursday Burger burn– FEB 16th - 2012 and each third Thursday of the month.**

**If you have never been, it is really simple, fly-in or drive in to the Mason City Airport. Cars park on the south side of the Rozendaal Hangar . We have paved parking up by the fuel tank farm if you prefer to fly in.**

**Bring something to throw on the grill, something to drink, and a dish to pass. If you are flying in and that is a problem, fear not, we always have plenty of food! Oven for Pizza, finger food has been great.**

**We light the grills around 6 pm.**

**If you drive and need through the gate, call 641-425-5432 and we will let you in.**

**No speeches, no meetings, just fellowship and good food with other flyers.....**

**Everyone is welcome; pass this along to your friends or EAA chapter mailing list**

**IN August, we had P-51 flights with 2 local guys getting a ride, planes leaving smoke, wall to wall tables with the best selection of food in any hanger on Thursday night. Right down to steamed crab/sausage with Mohitios (spelling, but cups with leaves, lemons, juice extracts, spirits with unknown ingredients topped with ice) Where else can you go for such a diversity of events, people and fellowship/?**

**<http://www.facebook.com/burgerburn> face book page.**

*Great news:*

*The Chapt. 94 hanger is now being occupied by paying air-planes again.*

*A huge thank you to Ken Asbe for doing a great deal of the work and orchestrating the balance of what he didn’t do.*

**Updated photos in place– please follow directions below:**  
**Latest new photos are of the young eagles and Pilot listings.**

**Photos:** Please note a neat new way to view past events in our photo section. This is a better way to showcase more photos each with a description. Here are the steps to follow to see them. And they are simple!  
Hit this tag: <http://photobucket.com/> Then in upper right hand corner **username box eaa94** For **password type eaa94show** then hit **Login** On the left you will see any one of the events...with photos.  
Pick the event and then pick **slideshow** and you should be able to see everything. This works really well.

Those of you with EAA 94 photos, I can send directions to load them... it is just two more steps than above and also works really well. Please do ask... and I will help you.

There are lots of events again for the balance of the year, please do send any and all photos to me that you would like on this photo site. WE can put into categories from airplanes sitting, flying and the like, right down to rivets and tire stems. With your help this can be a great grouping of photos.

**Your club has been doing some great things, with more members than many, more flying planes than most and the list goes on. We held the largest young eagles event in Iowa last year. We exposed more aviation related material to the kids than any other young eagles event.**

**We have some great things coming down the line with the hanger project, possible high school class start up of a flying aircraft build project, revived interest in helping members get back to flying with lower cost planes.**

<b>EAA 94 DUES PAYMENT FORM</b>	
<b>DUES \$15.00/YR</b> JAN 1 TO JAN 1 each year.	
Name: _____	
Address: _____	
Phone number- (snow list calling) _____	
Email address (printed please) _____	
Dues for ( ) 2008 ( ) 2009 ( ) 2010 ( ) 2011 ( ) 2012	
Submit to -	
EAA 94	
Bill English	
-3385 Saratoga Court      Mason City      IA      50401	

Dues have been and always will be considered due in Jan each year. Starting next month, unpaid members will just receive meeting notice with no updated minutes or agenda.

To:

<http://eaa94.org/> Is the connection present for the EAA 94 Web site

<http://www.facebook.com/burgerburn> Burger Burn Facebook page  
Hosted each month by Doug R. (see inside) 3rd Thursday.

**The Legal Eagle build project will always accept donations to the project, this for labor or expertise or funds. Please contact any on the board as listed on the front page header**

**Not many project or class studies can tote life building experience, with on going improvements with little to no cost to school system or surrounding enterprises .**
